Notice to Homeowners Beulah Road Project

The Virginia Department of Transportation (VDOT) will be working in the area to begin utility relocations.

The work will also include survey stakes identifying property lines, utility locations, and construction easements.

It is expected, weather permitting, to have Verizon working by the end of July and Washington Gas by early to mid August 2006. Citizens may experience some traffic delays due to lane restrictions for at least 6 to 8 months.

Questions regarding the project should be directed to:
